

Assignment: Critical Thinking & City Problem Analysis

Topic:

Why do Indian cities face congestion on their roads and footpaths?

Assignment Instructions:

1. Critically analyse the root causes behind these persistent urban issues.
 2. Who is responsible — politicians, government officials, the public, or society as a whole?
 3. Why is each stakeholder not fully doing their job?
 4. What are the limitations, gaps, or challenges they face?
 5. What would motivate each group to perform better — and when?
-

Submission Guidelines:

- Limit your answer to 1000 characters (approximately 20 handwritten lines).
- Handwritten only. Upload a clear scanned copy of your written response. Only PDF file to be uploaded
- You may include hand-drawn flowcharts or diagrams — they are encouraged.
- You are free to discuss, research online, or even use ChatGPT.
- **There is no “right” answer** — we are evaluating how logically you think, and whether you can break down a complex, multi-variable problem into its unique components.
